Assembly instructions

- Unpack all the elements and check for completeness. Remove all the packaging materials.
- Before you assemble the plate shelf, check the properties of the wall you want the shelf to be mounted on. The wall should be strong enough to bear the weight of the shelf with its maximum load.

- Mark the drilling points on the wall you want the shelf to hang on.

- Drill the holes in the wall and insert the 4 pins.
- Mount both side elements on the wall using the included screws.

- Place the plate shelf (C) onto the side elements.
