## Version / Characteristics

- Designed for:
  - milk
  - milk bag
- Opening for milk hose: in lid, Ø 12 mm
- Lid properties: detachable

EN

## Purpose

Fig. 1

The milk container is designed for temporary storage of milk in the milk refrigerator.

Filled with up to 4 litres of milk or with milk bags, the milk container is a perfect addition to the KV9L milk refrigerator. The chilled milk for cappuccino, white coffee, latte macchiato and more is dispensed directly from the container through the opening in the lid.

## Care and Cleaning Instructions

1. Before the first use, observe the care and cleaning instructions.
2. Clean the milk container regularly after the end of each working day, or more frequently if needed.
3. Rinse the milk container with warm water with a mild cleaning agent.
4. Rinse the milk container again thoroughly from the inside with fresh water to remove any residues of the cleaning agent.
5. Wipe the exterior of the milk container with a soft, damp cloth.

## Storing of Milk Container

1. After each use, clean the milk container according to the instructions above.
2. Then dry the milk container thoroughly using a soft cloth.
3. Store the milk container in a dry place.
