User instructions

- Unpack the buffet cabinet and remove the packing material according to the environmental regulations.
- Place the buffet cabinet on an even surface.
- Do not place the buffet cabinet in the place exposed to the direct sunlight.
- When placing the buffet cabinet, make sure there is enough space from service side to open the glass doors.
- The buffet cabinet is designed for displaying pastries, snacks and similar food products.
- Do not store perishable products in the buffet cabinet.

- Both display areas in the buffet cabinet are permanently fitted. It is not possible to change their height or remove them from the cabinet.
- The buffet cabinet can be filled in only from the rear.
- Prepare appropriate food products and place them on the upper / lower display area.

- In order to remove the displayed products open the appropriate door.
- The door may be easily blocked open. Two elongated holes with a plastic element lock the door in open opposition.
- More plastic elements protect the door against strong impact if it suddenly drops down.

Cleaning instructions

- Clean the interior and exterior of the buffet cabinet with a soft, wet cloth or sponge which does not shed fibres.
- In case of strong contamination, use a mild cleaning agent.
- **Never** use harsh or coarse cleaning agent which may scratch the surface of the buffet cabinet.
