

Insertion thermometer, analogue

Description

Features

- Control unit: -
- Puncture depth: 120 mm
- Temperature range: -10 °C to 100 °C
- Design: Analogue
- With temperature sensor: Yes
- Designed for: Core temperature measurements
- Properties: -
- Including: 1 clip
- Colour: Silver
- Important information: -
- Temperature measurement units: °C
- Colour: Red
- Application area: Steaming
Cooling
- Material temperature sensor: Stainless steel
- Material: Stainless steel
- Battery: -
