We reserve the right to implement technical modifications.

Version / Characteristics

- Designed for cold beverages
- Cooling beverages with ice pipe
- Detachable ice pipe for filling with ice
- Drip tray: integrated, removable

Intended Use

Beverages dispenser is designed for cooling and keeping suitable beverages cool with the use of ice pipe.

List of Components of the Appliance

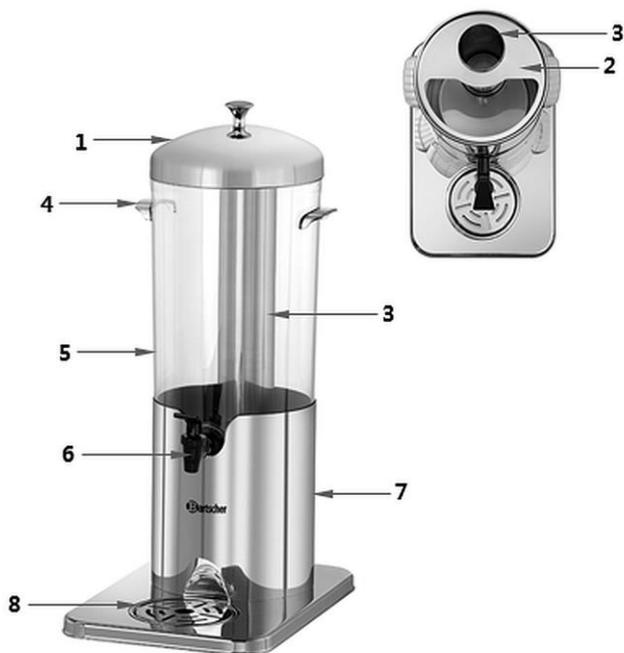

Fig. 1

- | | |
|--------------|-----------------------------|
| 1. Lid | 2. Container cover |
| 3. Ice pipe | 4. Container handle (2 pcs) |
| 5. Container | 6. Drain tap |
| 7. Base | 8. Drip tray with grate |

Installation

1. Set the beverages dispenser on a flat, safe surface, which features load-bearing capacity sufficient for the weight of the appliance and is stable enough.
2. Avoid places of direct sunlight, for this could negatively impact cooling functionality.

Operation Instructions

1. Before the first use, thoroughly clean the beverages dispenser according to the instructions in section '**Cleaning**'.
2. Make sure that the drain tap is closed, and the container and drip tray are correctly positioned on the base.

Fig. 2

Fig. 3

3. Insert the ice pipe in the container. Make sure it is securely set in the container's bottom.
4. Place a cover at the edge of the container.
5. Use the opening in the cover to fill the container with a pre-chilled beverage.
6. Fill the ice pipe with ice-cubes.

It additionally secures the ice pipe from the top.

7. Place the lid on the container.

The ice in ice pipe keeps the beverage chilled for long time.

Beverage Dispensing

1. Dispense beverage from the container as needed.
2. Place a suitable container under the drain tap (cup, glass, mug) with maximum height of 14 cm.
3. Press the drain tap down to dispense the beverage to a container.
4. When required amount of beverage is dispensed, release the drain tap.

The drain tap closes automatically.

Cleaning

WARNING!

For cleaning, do not use any scouring agents containing solvents nor corrosive cleaning agents. They may damage the surface.

1. Clean all beverages dispenser after each use.
2. Remove the lid and cover from the container; remove the container from the base; remove the ice pipe from the container.
3. Empty the container and the ice pipe.
4. Clean the container thoroughly with warm water, a soft cloth or a sponge and a mild cleaning agent. If needed, use plastic dish-washing brush.
5. Clean thoroughly the drain tap, filling the container with hot water and draining it through the drain tap.
6. Wash the cover, lid and ice pipe thoroughly with warm water, a soft cloth or a sponge and a mild cleaning agent.
7. Wash the removable drip tray and grate with warm water and a mild cleaning agent.
8. Thoroughly rinse the cleaned parts with fresh water.
9. Wipe the base with a damp, soft cloth.
10. Dry all surfaces with a linen-free cloth.
