

Standpipe 44/247

► Closure and overflow protection for sinks

Description

The standpipe reliably closes the sink drain valve. For basins with a depth of 250 mm, it also serves as overflow protection by draining excess water through the valve.

Features

- Material: Stainless steel
- Important information: -
- Size: W 44 x D 44 x H 247 mm
- Weight: 0.24 kg
