Technical data:

Name:	● Soap dispenser for wall mounting
Code-No:	● 850.007
Material:	● chrome nickel steel, brushed
Capacity:	● 1 liter
Dimensions:	● width 123 x D 110 x height 204 mm
Weight:	● 0.5 kg
Equipment:	● fastening materials

Delivery without filling!

List of components

- ① Housing / container
- ② Opening for filling
- ③ Fill level indicator
- ④ Pump

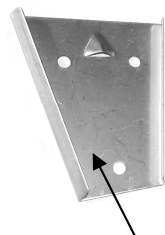

Features:

- Ideal for use in public bathrooms, such as restaurants, hotels, airports, etc.;
- Manual, cartridge-free pumping system for liquid soap;
- Fill level indicator;
- Low maintenance.

Installation

- Unpack the soap towel dispenser and remove the packaging.
- Attach the soap dispenser near sinks, in an easily accessible place.

- Remove the wall bracket from the soap dispenser and mark on the wall holes to be drilled based on the holes in the wall bracket at the desired height.
- Drill 3 holes in the wall and insert the wall plugs connected to the dispenser.
- Screw the wall bracket to the wall with the attached screws and then hang the soap dispenser on the bracket.
- Make sure that the soap dispenser snaps into the wall bracket.

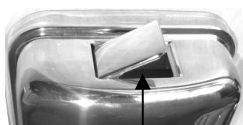

Wall bracket

- In conclusion, tighten the screw inside the container.

Screw

Filling with soap / taking soap

Opening for filling

- Open the opening for filling the soap dispenser and fill the container with liquid soap.
- The minimum capacity is approximately 300 ml.

- Press the pump at the front of the unit to dispense soap as needed.

Cleaning

- Clean the soap dispenser with a soft, damp cloth.
- **Never** use harsh or abrasive cleaners that could scratch the surface.
- After washing use a soft, dry cloth to dry and polish the surface.
